

MODEL 2290

20" Capacity Whole Tree Chipper

The Model 2290 is a compact, **extremely versatile** drum-style whole tree chipper that is popular with land clearers and loggers. Featuring a standard track-type infeed conveyor with **powerful feed wheels** and **big horsepower options**, the Model 2290 delivers aggressive crushing and whole tree chipping power in a compact platform. As with all Bandit whole tree chippers, the Model 2290 **produces a very uniform chip** that is ideal for biomass and mulch markets.

WATCH IT RUN!

Maximum Production

Though rated as a 20" capacity chipper, the Model 2290 features a large 24-½" by 26-½" chipper opening to easily accept large whole trees. A **synchronized feed system** delivers material to the drum at the rate the chipper wants it, **increasing productivity and fuel economy** while reducing machine wear and tear.

Unmatched Chip Throwing Velocity

Proprietary designs for Bandit drum housings and discharge chutes allow the Model 2290 to **throw chips with tremendous force**, ensuring chip trailers are filled to capacity. The stationary discharge chute features a **hydraulically operated chip deflector** to throw chips up, down, left or right.

Powerful Feed Systems

Bandit's patented **Slide Box Feed System** uses direct down pressure combined with hydraulic power at the feed wheels to aggressively pull in, compress and crush material with minimal trimming.

Horsepower Options Galore

The Model 2290 can be configured with **engines ranging from 350 to 600 horsepower**. Engines from most major manufacturers are available, allowing you to match the chipper to the rest of your fleet.

Unmatched Reliability – Minimal Down Time – Maximum Machine Life

At the heart of the Model 2290 is Bandit's legendary 37" diameter chipping drum. Bandit drums are constructed with oversized shafts and bearings, and a rigid internal baffling system that makes them virtually indestructible. These drums, along with the use of high quality materials, industry standard components and **extensive welded construction**, serve as the foundation for Bandit's proven reputation for durability and reliability. They're also the basis for the industry's most comprehensive warranty—Bandit's **five-year GUTS warranty** that covers the drum, feed system and related components.

Many Ways to Configure Your Model 2290

Self-Propelled

Take the chipper to the tree with the optional CAT® 315L or 320L steel-track undercarriage.

Built-In Cab/Loader

Operating and feeding the Model 2290 is easy with a built-in grapple loader and operator's cab.

Over-the-Top Discharge

Fully loads open-top trailers

Standard & Custom Colors Available

Choose from six standard colors, or select a custom color to match your fleet.

Specifications

Standard Dimensions:

Length: 29' 6"
 Width: 8' 6"
 Height: 11' 5"
 Weight: 33,000 lbs.
 Tires: (8) 10R x 17.5
 Axle: (2) Tandem 20,000 lb.

Track Dimensions:

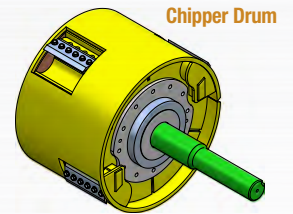

Length: 24' 5"
 Width: 11' 2"
 Height: 11' 10"
 Weight: 45,000 lbs.
 Tracks: Steel-track undercarriage

Feed System:

Slide Box, reversing auto feed
 Top Feed Wheel: 32" x 27" diameter
 Bottom Feed Wheel: 32" x 10-5/8" diameter

Chipper Drum:

37" x 24" with four 5/8" x 6-1/4" x 12" knife pockets

Discharge:

Hydraulic swivel or stationary, hydraulic deflector

Capacities:

Fuel Tank: 130 gallons (2290) or 150 gallons (2290 Track and HD)
 Hydraulic Tank: 85 gallons
 Machine Capacity: 20" Throat Opening: 24-1/2" x 26-1/2"

Engine Options:

350 - 600 horsepower engines available

Popular Options:

| | | |
|----------------------|--|--|
| Built-In Cab/Loader | 10' Infeed Conveyor (standard on towable, optional on track) | Stationary Discharge with Hydraulically- Operated Chip Deflector |
| Babbited Knives | Air Compressor (optional on towable) | Radio Remote |
| Custom Colors | | |
| Exterior Work Lights | | |
