

MODEL 2600

74-HP Towable Stump Grinder

For operators who prefer the simplicity of a **towable stump grinder** but are tired of constant belt adjustments and maintenance, the Model 2600 is an exceptional choice. This machine combines **aggressive horsepower** in a compact, lightweight design that makes stump grinding as easy as ready, set, tow! Available with numerous options and reliable, beltless hydrostatic drive, the Model 2600 is an **exceptional performer** for rental companies, municipalities, and stump grinding professionals.

MINIMAL DOWNTIME. MAXIMUM PRODUCTIVITY.

- Low-maintenance **hydrostatic drive**
- **74-horsepower** diesel engine options
- Available with **radio remote control**

As Easy as Tow-and-Go

The Model 2600 rides on a heavy-duty 5,200-pound Torflex axle and goes after stumps with a wide 68" swing arc for **minimal repositioning**. It can reach up to 27-1/2" and cut to a depth of 22" to handle large stumps with ease. It features the Revolution cutterwheel which delivers **maximum cutting power** with exceptional chip containment. The Model 2600 also features a standard 48" telescoping tongue to help fine-tune position at stump.

Direct Power At Your Fingertips

Powering the Model 2600 is a CAT or Perkins 61-horsepower Tier 4i diesel engine. With hydrostatic direct-drive, there are no belts, jackshafts, bearings or associated parts to maintain, making the operation and maintenance of these machines **extremely simple**. Power application with hydrostatic direct-drive is typically much smoother than traditional belt drive, making the Model 2600 a **breeze to operate**. All machine functions are controlled via a swing-out operator's console; a wireless radio remote is optional.

Proven Reputation for Service & Support

Bandit stump grinders have earned the reputation of being **the best economical decision** you can make for a long-term investment stump grinder. Backed by a factory and worldwide dealer support network for parts and service, your Bandit will remain a valuable asset to your fleet.
