

MODEL 3100 TOWABLE

Towable Stump Grinder

The Bandit® Model 3100 Towable is a high-production, cost-effective stump grinder ideally suited for municipalities, fleet use, and for operations grinding big stumps. It's the largest towable stump grinder offered by Bandit, and with up to 165 horsepower it's the most powerful towable stump grinder on the market. With a large 31" diameter belt-driven cutter wheel, strong hydraulic systems and a large frame, there simply isn't a more productive, more reliable towable stump grinder available.

MAXIMUM PRODUCTIVITY. MINIMAL DOWNTIME.

- High-power **gasoline or diesel engine options**
- **31" diameter Revolution cutter wheel**
- **Low-maintenance design with easy-to-access components**
- **Belt maintenance made easier with Bandit's special belt setup**

Big Grinding Dimensions For Big Stumps

The Model 3100 has a wide 80" side-to-side cutter wheel swing to easily handle large stumps. It can grind to a depth of 27" and reach stumps 31" high. Combined with a 60" telescoping tongue, the Model 3100 often needs no repositioning once it's staged at a stump. This contributes to the Model 3100's impressive grinding speed – even the largest stumps are usually processed in a matter of minutes.

More Power Than Any Other Towable Stump Grinder

Choose between a 122-horsepower Tier 4 diesel engine, or a class-leading 165-horsepower 5.7-liter gasoline V8 engine. Built by General Motors, the industrial-use V8 produces 352 lb.-ft. of torque to easily muscle through the toughest stumps. These engines turn a 31" diameter Revolution cutter wheel, delivering aggressive grinding power with the best chip containment of any grinding wheel. A Bandit cutter wheel with Greenteeth® is also available.

Colors And Options To Match Your Fleet

The Model 3100 is available with a variety of options to suit specific needs. Wireless radio remote control gives operators the freedom to grind stumps from any nearby location. Tool boxes, hitch designs and chip guards are available, as are a range of custom color options. Bandit will build your stump grinder to fit your job, and to match the rest of your fleet.

Specifications

Dimensions:

Length:	169"	Height:	85"
