

THE BEAST® 2660EU

35" Capacity Horizontal Grinder
Export Only

The Beast® Model 2660EU offers **exceptional versatility** for tree services, municipalities, logging operations, sawmills, recycling yards, and many other end users seeking a one-size-fits-all recycling solution. With a 35-inch by 60-inch throat opening, the Model 2660EU can **easily handle** waste wood, plastic, roofing shingles, chunk wood, and more.

CREATE VALUABLE PRODUCTS

Equip the Model 2660EU with a variety of teeth and screens to meet specific end-product specifications. The Beast can be set up to take waste wood and convert it into a valuable product that customers will pay top dollar for! And as your needs change, so can The Beast. Configure everything from the infeed speed, mill configuration, and screens to meet your spec!

PRODUCE MORE, PAY LESS

The Beast's patented cuttermill utilizes a unique cutterbody holder that regulates the size of the cut. The result is a more uniform product using less energy to process material. This results in savings in fuel, wear and tear, and most importantly – time – because you get the right size on the first pass.

MAXIMUM UPTIME

The Model 2660EU is built to stand up to any daily grind. Solid steel welded construction and the industry's best components combine to create a machine professionals can trust to perform. And when you need parts or service, turn to our worldwide network of authorized dealers who are ready to offer their support.

COMMITTED TO QUALITY & PRODUCTIVITY

Since 1983, Bandit has manufactured equipment for a multitude of wood waste processing markets. The vision since the beginning, is to build quality, highly productive, easy to maintain equipment providing years of dependable service.

The commitment for quality, innovation and dedication is instilled in every employee and is one of the main reasons why Bandit became an Employee-Owned Company (ESOP) in 2018. These core values ensure each Bandit machine will leave the factory ready to exceed your expectations.

WIRELESS RADIO REMOTE CONTRTOL

A wireless radio remote control with tether back-up is standard. The radio controls feed wheel up, infeed conveyor forward / reverse, feed wheel forward/ reverse, gate open / close, infeed and discharge speeds, discharge height adjust, engine throttle, fan purge and engine e-stop).
